PLEASE NOTE:  
All Joinery & Interior concepts are for conceptual purposes only and are not supplied as construction or manufacturing documents. All technical details illustrated or provided here are for general indication only. All cabinet construction details are indicative only. Builder / Cabinet maker/inter assumes responsibility for ensuring adequate construction methods are applied including any necessary associated engineering. Relevant trades including, but not limited to, builder, cabinet maker/inter, tiler, electrician and plumber to separately provide any technical calculations or diagrams and comply with necessary industry regulations, safety standards etc.  
Prior to manufacturing and/or construction ALL DIMENSIONS are to be checked, measured and verified on site. Any discrepancies or queries should be made known to the designer prior to manufacturing.  
Builder or cabinet maker/inter to confirm all materials/finish selections with client prior to manufacturing.  
All supplied concepts are subject to copyright and all copyright, intellectual property and/or trademarks will remain the property of Oliveri. No part of this document may be reproduced without written permission is given.
